ABOUT ME

I am a motivated developer with a deep-rooted passion for how things work under the hood. From my early interest in technology to learning software architecture, I've focused on becoming a well-rounded programmer who understands both the logic and the user experience. I'm currently looking to jump into a junior role where I can solve problems and keep growing as an engineer.

EDUCATION

2022 - 2023

Baccalaureate in Economics and Management

Lycee qualifiant AL MAJD

2024 - 2026

Associate Degree in Computer Science (BAC +2)

eWA (ecole du digital)

Specialization: Full Stack Web Development

SKILLS

Languages: **JavaScript, C, HTML5, CSS3**

Frontend: **Next.js, React, Tailwind CSS**

Backend: **Node.js, Express.js, Prisma ORM**

Tools: **Git, GitHub, Postman, REST APIs**

PROJECT

Backend API Service

Built a secure backend using Node.js and Express.js, Managed data relationships using Prisma ORM, Tested all endpoints using Postman to ensure 100% reliability.

Web Interfaces

I have developed several responsive web interfaces using Next.js, React, and Tailwind CSS. These projects focus on creating clean user experiences and efficient frontend logic, with all source code available on my GitHub for review.
